

Cluster 0 (10 traits)

Cluster 1 (10 traits)

Cluster 2 (5 traits)

A word cloud visualization for Cluster 2, which is defined by 5 traits. The words are arranged in a cloud shape, with 'gonotrophic' being the largest and most central word. Other words include 'cycle', 'individuals', 'completed', 'cycles', and 'lifetime'. The words are color-coded: 'individuals' is green, 'cycle' is grey, 'gonotrophic' is grey, 'completed' is orange, 'cycles' is orange, and 'lifetime' is orange.

gonotrophic
completed
cycles lifetime

Cluster 3 (5 traits)

A word cloud visualization for Cluster 3, which consists of 5 traits. The words are arranged in a vertical stack. The word 'weight' is written vertically on the left in a large, dark grey font. To its right, the word 'loss' is written horizontally in a large, dark grey font. Above 'loss' is the word 'percentage' in a medium-sized, magenta font. Above 'percentage' is the word 'nymphal' in a small, blue font. Below 'loss' is the word 'body' in a medium-sized, magenta font. Below 'body' is the word 'molting' in a small, blue font. To the right of 'molting' is the word 'larval' in a small, blue font. To the right of 'larval' is the word 'prefeeding' in a small, orange font, written vertically.

Cluster 4 (68 traits)

Cluster 5 (7 traits)

Cluster 6 (11 traits)

Cluster 7 (31 traits)

Cluster 8 (6 traits)

A word cloud visualization for Cluster 8, which is defined by 6 traits. The words are arranged in a triangular shape pointing to the right. The largest word is 'egg' in dark grey. To its right, the word 'mass' is written vertically in dark grey. Below 'egg', the word 'weight' is written in a large, bold, brownish-gold font. Above 'egg', the word 'eggs' is written in a medium-sized blue font. To the left of 'eggs', the word 'females' is written in a small brownish-gold font. Above 'eggs', the word 'laid' is written in a small brownish-gold font. Above 'laid', the word 'female' is written in a small brownish-gold font. Above 'female', the word 'raised' is written in a small brownish-gold font. At the top of the cluster, the words 'oviposition' and 'hatching' are written in a small brownish-gold font.

Cluster 9 (9 traits)

A word cloud visualization for Cluster 9, which is defined by 9 traits. The word "survival" is the largest and most prominent, centered in the cloud. Other words are arranged around it in various sizes and orientations. The words "hatch", "fasting", "survived", "unfed", "post", "adult", "engorged", "larvae", "nymph", "egg", and "larva" are all visible. The words "hatch", "fasting", "survived", "adult", "engorged", "larvae", "nymph", "egg", and "larva" are in shades of green, while "unfed" is in orange. The word "survival" is in a dark grey color.

survival

hatch fasting survived unfed post adult engorged larvae nymph egg larva nymphs

Cluster 10 (6 traits)

A word cloud representing the traits of Cluster 10. The words are arranged in a roughly triangular shape, with 'percentage' at the bottom and 'molting' at the top. The words are color-coded: 'molting' is blue, 'success' is yellow, 'larval' is pink, 'molt' is yellow, 'ratio' is blue, 'molted' is grey, 'percentage' is grey, and 'nymphal' is pink.

nymphal

Cluster 11 (8 traits)

A word cloud centered around the word "incubation". The words are arranged in a circular pattern around the central term. The words include: "oviposition", "egg", "eggs", "hatch", "deposition", "hatching", "eclosion", "hatched", "larvae", "larva", "start", "median", and "lay". The words are colored in shades of orange, pink, and green.

Cluster 12 (13 traits)

Cluster 13 (5 traits)

A word cloud visualization for Cluster 13, which is associated with 5 traits. The words are arranged in a cross-like pattern. The word 'longevity' is the largest and is oriented vertically in the center. To its left, the words 'aphid' and 'aphids' are stacked vertically. To its right, the words 'adult' and 'lifespan' are stacked vertically. Below 'lifespan', the word 'survival' is positioned. The colors of the words are: 'aphid' (green), 'aphids' (green), 'longevity' (grey), 'adult' (green), 'lifespan' (brown), and 'survival' (orange).

Cluster 18 (12 traits)

Cluster 19 (8 traits)

A word cloud visualization for Cluster 19, which is defined by 8 traits. The words are arranged in a central cluster, with their size and color indicating their relative frequency or importance. The word 'feeding' is the largest and most central, rendered in a dark grey font. Below it, 'prefeeding' is written in a vibrant pink. Above 'feeding', the words 'nymphal', 'larval', 'adult', and 'feed' are visible in various shades of blue and orange. At the bottom, 'nymph', 'nymphs', and 'state' are written in orange. The overall layout is compact and centered on the page.

Cluster 20 (12 traits)

A word cloud representing the 12 traits of Cluster 20. The words are arranged in a central, somewhat circular pattern. The largest word is 'nymphal' in dark grey. Other prominent words include 'premolting' in brown, 'larval' in brown, 'premolt' in dark grey, and 'moulting' in pink. Smaller words include 'molting' in pink, 'nymphs' in orange, 'phase' in pink, 'state' in blue, 'moult' in orange, 'nymph' in orange, and 'complete' in blue. The word 'larval' is oriented vertically.
